

★ SPARK ★

A simple framework for clearer AI prompts

SPARK helps you structure prompts so the AI clearly understands what you need. By defining the context, format, goal, audience, and tone upfront, you're far more likely to get a useful response the first time.

Example Prompt

- S** **Situation** | I need to run a 30-minute meeting to review progress on a project.
- P** **Presentation** | Create a short meeting agenda with 4-5 bullet points.
- A** **Aim** | Structure the discussion so we cover updates, blockers, and next steps.
- R** **Reader** | This is for a small team of colleagues.
- K** **Key** | Keep it clear, concise, and professional.
